

AbitMORE SCM for IDMS/ADSO - Benefits

- <Solutions> |
- <IDMS/ADSO in CMN/ZMF>

- Improves the integrity of ADS Online application changes via sophisticated change auditing.
- Extends ChangeMan ZMF's native facilities for ADS Online components, including check-out, check-in, freeze, promote, demote, approve, install, back-out, and even scratch requests.
- Provides comprehensive software change management for ADS Online components.
- Provides a comprehensive and inviolate audit trail of all ADS Online migration activities, enhancing IT governance compliance.
- Will not only save valuable time, money and resources, but also reduces downtime of ADS Online applications due to SCM activities.
