

AbitMORE SCM Reporting - Built-in reports

Here are some samples of built-in reports that come with ASR (out-of-the-box):

- Component history report by user ID.
- Fixes in unplanned packages awaiting approval.
- Statistical summary by programming language.
- Package promotion sequence.
- Active ChangeMan users.
- Installed packages summary.
- Orphan approval entities.
- Outstanding or late package approvals.

These are just some of the available reports. Below is an additional list that actually provides many more details for each of the reports mentioned. Enjoy exploring the (always growing) list of built-in sreports below ...

Note: use the search box below to narrow down this list (e.g. by category).

Updated	Built-in solution	Summary:	Category
05/02/2014 - 17:06	All expired non-BAS packages	List all non-BAS packages with a planned install date in the past.	<CMN/ZMF Performance Tuning >
24/01/2014 - 14:49	All stage requests not moving anymore	List all staged components in all non-BAS packages, that were last changed long time ago.	<CMN/ZMF Performance Tuning >
24/01/2014 - 14:48	Non-BAS pkgs not moving anymore	List all non-BAS packages without any recent package status changes.	<CMN/ZMF Performance Tuning >
24/01/2014 - 14:48	All checkout requests not moving anymore	List all components in CHECKOUT status, checked out before a given date.	<CMN/ZMF Performance Tuning >
