**Report Variables:**

```
EDIT          U87462.ASR.WV.RPTV7(PCORPHN) - 01.08          Columns 00001 00072
Command ==>          Scroll ==> CSR
***** Top of Data *****
000001 /* Initialize extended variables                      */
000002
000003 /* RPTV_PROMO_NICKNM = promotion nickname                */
000004
000005 rptv_promo_nicknm = 'VM*'
***** Bottom of Data *****
```

Specifying values for report variables can be done using the **edit vars** feature, for which two options exist:

- option **P** will bring up an ISPF pop-up panel. Checkout [components deleted from STG without demote](#) for an illustration of this option.
- option **I** will invoke the standard ISPF editor (as illustrated above). Using this option, the specification of values can be done using any REXX compliant assign statement, which adds another dimension to the power of report variables.

#### Report Output:

```
